## **FROM THE EXECUTIVE SECRETARY'S'S DESK**

Dear members, Friends, associates, esteemed donors and community members – Greetings to you all and hereby my brief message

The pandemics, unemployment, lack of livelihoods and host of tribal issues have made a turning point in CSO history and it has shatterproof of the importance of speed and quickness in times of calamity. At SAMIDA, we are talented, passionate and committed team of people came together to make a significant impact on the tribal communities we that we serve. I am cognizant to hereby present we have accomplished quite a few noteworthy happenings over this 2022-2023 year. We set ourselves for a mission, to authorize tribal children, adolescents and women and made them proficient and provided youth with employment. We have gathered speed for our efforts to scale our programme intrusion, build up organization, and diversify our funding portfolio in a spright and pioneering manner. We aligned our life-skills framework to the new objectives and began working on humanizing networking spirit with CSO/Donors/governments. We have scrutinized as a colleague under the projects to pilot a community-sponsored system delivery programme with women, children and tribal communities.

In our livelihood, education and public health programmes, we have rolled out a full range of programs to meet the active demand for skilled professionals across tribal, rural and urban areas. We have preferred by the FVTRS as an implementation partner for employability trainings. Further we are providing livelihood skilling, HIV/AIDS prevention, and RILM education mission, children and women support. We deem to pay attention to our partners and volunteers and frequently gauge ourselves through internal evaluations, studies and social audits.

The process is to promote to bring the reliable absolute accountability and commitment and stand as exceptional associate to all the donor agencies. I will bestow the self-importance to delve that SAMIDA has been confirmed as a Great Place to Work for community development and express reverence to our accent on building a conductive good domestic traditions. The work is progressing well in terms of strengthen the organizational culture and ethics towards achieving the set organization capacities.

Hereby our sincere adoration for the support of our president Mr. Padala Ramana, our Honorary President Mr. Sharma, benefactors, associates and volunteers, in fact its but for their support and continued collaboration that today we could able to look forward for the development heights and generate the impact for the beneficiary communities and looking forward for different new heights.

D.Veerabhadarao

## **A NOTE FROM THE PRESIDENT - SAMIDA**

I am blissful to share that the SAMIDA Implement inclusive education and holistic livelihoods curriculums for children from vulnerable communities to enable them to develop their skills and capacities. Secure future opportunities for children and youth through training, counseling and skill trainings to develop their employability skills.

Its been not an exclaim the NGO Builds capacities that contribute to individual and community development by ensuring access to the necessary tools and supporting the efforts of the Government. To ensure that every child has the best possible access to education, its ensured that as soon as the RILM partnership has begun.

The development activities restarted with increased groups and following the preventive measures. During the concerned period, SAMIDA also assisted the Government in expanding public facilities Protect the most vulnerable children to ensure that they grow up in a safe environment away from discrimination, stigma and discrimination.

Through its programs for people living with HIV or affected by HIV, provided linkages, proper nutrition, counseling especially to Tribal children, leprosy infected and health check-ups and medication for children.

To name some of the accomplishments, about 2000 children are mainstreamed and children received material and nutrition support to access education, accommodation and food. With the support of SAMIDA Social Action teams and the communities the employability trainings, HIV/AIDS prevention has been successfully implemented during the reported year.

I take it a privilege to extend my continued collaboration and seek the sanction of the community and the beneficiary segments

Padala Ramana

## **Transforming Communities through Local Resources**

The SAMIDA organization which has been sunk into the Tribal children and communities wellbeing has placed its presence among the vulnerable districts of tribal communities. This NGO has put up the glorious stamp to uplift the education, health, lively hoods, income generation and women empowerment etc and the science and technology, employability trainings, education, support structures and so on.

It has been a non-profitable, non-religious, non-political - Social Service voluntary organization has been working since 2001. NGO has formed with the co-operation of dedicated social workers and enthusiastic service minded group with a view to facilitate the helpless rural, urban and tribal poor community through various developmental activities. The birth of "SAMIDA" is a response indeed an emotional response to the problems of illiteracy, ignorance, ill health, malnutrition, unemployment and inadequate medical and educational facilities that have widely prevalent in north coastal Districts. Hence, the Organization formed with no profit motive and dedicated to solve the identified problems

### **As an outcome of this strategy exercise, SAMIDA has**

- Re-drafted its mission statement
- To equip vulnerable young people with the life skills that enable them to thrive in the transition to adulthood.
- Decided to focus on five outcome areas for young people in India viz. Empowerment, Academic Success, Employability, Job Attainment and Workplace Success
- Defined two distinct life-skills anchored approaches for women and youth

### **Mission quality**

To align ourselves better with the government, we are now enhancing our program framework. We are developing new programme models – innovative approaches for cultivating new and leveraging existing partnerships. We launched Tribal Community Education Centres to generate grassroots-based interest and participation in literacy and education continuation. In the livelihood and skilling space, SAMIDA became one of the FTRS and RILM implementation agencies for chosen education Impact Bond. We are now enhancing our diversified funding portfolio to turn our vision into reality. These initiatives in tandem, will pave the path to achieving our goals.

***Specific activities implemented with the support of deferent agencies and local donors during the period 2022-2023 to fulfil SAMIDA Vision & Mission***

**I. Back to children send to Schools through the Asha Kiran...a ray of hope with the support of the Rotary India Literacy Mission (RILM) Kolkata.**

The improper livelihoods, long migrations and failure of govt. machinery in identifying the tribal children for education even though large amount of hostel structure is in vogue but lacking the coordination and emphasis. This we achieve through the way we teach our laggards and over the years, through these initiatives quality education is made a mark to ensure that students mainstreamed and enrolled. Under this program we covered 1200 tribal laggard, dropout and never enrolled children in the Ananthagiri & Ravikamatham mandals of the ASR & Anakapalli districts of Andhra Pradesh.

These Asha Kiran centers under the aegis of international holistic RILM as indispensable to Tribal geography and eco system that will fasten the laggards with the skills required to enrich the learning abilities and make them to learn, recapitulate and transform the learning into internalization. Learning and Laggards and morons typically have an aversion to learning, memorizing and internalizing the things that trigger change in understanding to know the difference between learning and not at all learning and in this context the Asha Kiran centers will facilitate them to transition towards learning mode.

The SAMIDA Asha Kiran centers are promoting an accountability system which is the set of teacher practices to measure and hold centers responsible for raising student achievement for all students, and to prompt and support improvement where necessary as in the case of laggards and morons. The centers will demonstrate a special teaching/handling/treatment means and methods that will be able to transform the laggards and morons towards a pursuit and fascination for zeal of learning because it is not a biological trait but an attribute of lethargy. The outcome is approach that is customized to their unique needs, uniformity in teaching and comprehensive perspective approach and model for replication added with 100% mainstreaming setting a target and yardstick with teacher training facilities.

**Activities planned and organized in the project**

**1. Asha Kiran centers – reduce the gap in knowledge levels to achieve the age appropriate learning and classroom appreciation**

The outcome at the end of the day is reaching out to vulnerable and deprived children for age appropriate learning and classroom efficiency, adapting tribal specific practices and supporting care providers and community advocates to demand inclusive and quality

education. The second phase program was inaugurated by the Local MLA Shri Setti Palguna garu & Shri Kishore Cherukumalla representative of the RILM.

### 3. Medical camps to children periodically in the Asha Kiran centers

The SAMIDA has organized medical and health camps for Asha Kiran Tribal children with the medical team at Villages during every month with an estimated all the AK children in which the students from various habitations and schools have come in and the same day the medicines have been distributed along with the medical supplementation and Vitamin capsules. We have analysts with an understanding of the fundamental concepts of Portal for the diseases among the Tribal Children and its consequences. It presents a general overview of Portal for tribal ill-health, its key features, manner, and camp implementation; and highlights the platform client applications that are available with the school administration.

### 4. Cultural activates

SAMIDA civil society maintains cultural initiatives like games and sports, indoor games, life skill games to maintain the heritage and integrity and continuity with the past and the social institutions such as social order, joint family system and institutions emerged in the early phase is responsible for several of the social problems in the modern period.

Through them we will address social problems, some problems are socio-cultural overtones are more prominent, whereas in some others, the economic and legal overtones are conspicuous

### **5. Parent & teacher collaboration meetings**

Promotion of social justice, equality and empowerment through parent-teacher collaboration and frequent meetings with poor disadvantaged and downtrodden parents through training and education on human rights, women's rights, leadership development and through issue based campaigns and execution of participatory activities at the community level is encouraging the AK centers evaluation and students revitalization

### **6. Stakeholders Round tables**

Stakeholder round table meetings have been an important tool to facilitate various developmental activities that include social, economical, educational, health care and emergency relief and rehabilitation services to the tribal communities in the district and these are being organized on a regular basis

### **7. Linkage with government schemes – like Amma Vadi,**

We are continuously maintaining the linkages especially child concern with different government departments and accessing the linkages and hereby the appropriate and eligible schemes under RTE, enactments and govt. flagship programs like Amma Vadi, Jagananna Goru Mudda etc.

### **8. Organize and celebrate the national event like 26<sup>th</sup> January, 15<sup>th</sup> august, October 2<sup>nd</sup> and November 14<sup>th</sup>**

All through the year the national important days are being celebrated with pomp and gaiety in the presence of MEO's, MPDO's, revenue and medical officials with a view to enhance their knowledge on nation building, value education, disseminating the nation building

## 9. Convergence with the education & other line departments

The SAMIDA Asha Kiran centers will promote an accountability system of Convergence with the education & other line departments which is the set of NGO practices to measure and hold centers responsible for raising student achievement for all students, and to prompt and support improvement where necessary as in the case of laggards and morons. The centers will demonstrate a special teaching/handling/treatment means and methods that will be able to transform the children towards a pursuit and fascination for zeal of learning through the convergence.

## 10. Advocacy with the stake holders for program sustainability

Tribal tracts nearly half of the age of education children attending school but halfway through these will remain solely laggards and not at all matching to the learning pace standards or skills necessary to extend the education further or not able to meet the competitive edges for employment or income generation. Here where the organization promotes advocacy among stakeholders towards retention, support and encouragement

## 11. Staff trainings and orientation sessions

In this regard we have organized different kinds of the staff orientation programs for Asha Kiran program strengthening and streamlining and effective functioning of our Asha Kiran centers at filed level.

## **II. Education, nutrition and medical care to the tribal downtrodden children to remote & hill top Tribal villages in the Ananthagiri mandal with the support of Bible Tabernacle Church – USA**

The SAMIDA under the aegis of Bible Tabernacle Church-USA has been making the best of efforts and deploying strategies on vulnerable Tribal children nutrition, medical camps, lepers welfare, children items distribution, awareness generation and direct action in an effort to sharpen the education system in vulnerable Tribal children intellectual and life skills worth and value addition since the nutrition component has been utterly misled thereby the children are being exposed to severe nutritional disorders.

Even the locally available good nutrients have been neglected and here where the SAMIDA is making efforts to organize the local foods and millets demos to sensitize the local communities on the importance of nutrition. In this context the SAMIDA under the auspices of Bible Tabernacle Church USA has undertaken the task of rolled out the distribution of nutrition, food items, Note books & pens, Masks & Sanitizers, Nutrition food like Ground nut foodies and good day snakes to the literacy center children in the presence of Mandal Educational authorities along with the local PRI representatives at all Villages, Ananthagiri mandal after a brief invocation of the agenda and preliminary programs and continuing missions.

The SAMIDA has made the programs opulent majesty and is engineered with the association of the parents, community, PRI and Sachivalayam staff, teachers and other measurable appreciators. The kits contained all the entitlements, nutrition pack, nutrients and other knowledge substances and fabrics. During the program which is supported by all the sections and elders have planned the school nutrition and Nutrition and education Kits comprising all children items having multiple service points of facilitation accessing more of the distribution accesses.

As a strategic partner of the Bible Tabernacle Church the partnership brings together fresh thinking and diverse voices around innovative ideas on neglected area tribal education through the drive progress and tackle impediments. The partnership will work in shaping negotiations and connecting tribal development experts, advocates and decision-makers for policy level dialogue and perspective planning.

The support has extended the helping initiatives to the leprosy victims and their wards through education, rations, medical attention, strategic medical care and other interventions. Accelerate the drive of public awareness and involvement through communications, campaigns, and convening of most trusted community events proportionate to the times and emerging trends

Over the years we would have developed a diverse and dynamic portfolio of capabilities, tools, and platforms to help build a better platform, sync, TLM, forward and backward linkages for everyone, everywhere in the domain of supplies for education of tribal children as well as the promotion of literacy among uneducated youth and elders

### Activities planned and organized

1. Identified the poor and needy downtrodden children in the tribal & rural areas
2. Provided the nutrition support on regular basis
3. Provided health services through the regular medical camps in the village level in the schools
4. Provided the educational materials to increase and improve their knowledge
5. Provided educational support through the alternative education development centers in the village level for 200 children in the tribal remote and hilltop villages
6. Provided medical support to leprosy victims through the medical camps in the Anakapalli municipality
7. Provided dry nutrition kits, distribution of blankets and dry ration to the leprosy victims in the Anakapalli municipality
8. Generated awareness on seasonal diseases
9. Linkage with government schemes
10. Convergence with education departments and active village and panchayaths elders to strengthen and streamline the education processes for systematizing the laggards, dropouts and never enrolled
11. Organized mega medical camps to tribal hill top villages and to the leprosy victims
12. The students would be helped with admissions in to educational institutions.
13. The students would be provided books, book bags and uniform.
14. The children would be given career guidance classes.

### **III. Target intervention project for high risk group community (female sex workers and also MSM) supported By the APSACS- Vijayawada, Andhra Pradesh**

SAMIDA right from its inception has been making its presence for the HIV/AIDS prevention. Enhanced scope and ambit with the introduction of the present strategy of including focus on maintained as the Program for Cooperative Cataloguing in which the Potential HRG, returnee HRG, spouses of HRG mainly women and stakeholders are covered through Providing information, linkages to services for HRG and their partners at source, Strengthen linkages, Improving access to other social and development agencies and programmes to reduce vulnerability among targeted community, deep sea fisheries, stone quarries, brick kilns, Laborers Spread out across the City like Construction, Hotel Services, domestic work etc.

The High Risk Behavior ranging from consumption of drugs & alcohol high risk heterosexual and plural sexual relationships and lack of awareness, knowledge and safe sexual behaviors relating to STI/STD/RTI will make their reasons associated for the project operation. 2-4 times more number of HRG has non-regular partners or visit sex workers, and the prevalence consistently is more than one percent.

The outreach planning for the ORC for the current year worked out and the PE wise planning is being devised with the given parameters of enrolment registers, regular meeting and follow up of the HRG, identification of high risk and vulnerable zones, HRG master sheets with individual details and typology Etc. This apart the organization has pinned a large portion of the hope on the individualized involvement of the peers in accelerating the pace of the program. The peer education (PE) is routed through the VPL and multi-faceted component and its future plans are to extend the outreach so as to make the peer education to per grouping enabled.

The challenges are Coverage, Care and Support, Stigma and Discrimination, Enabling Environment and to counter all these proper strategies applied are scaling up and monitoring quality of Coverage, strengthening Enabling Environment, Enhancing access to services for Care, Support and Treatment, Strengthening the services under STI Management, Increased awareness and widespread communication strategies and bringing focus on Mainstreaming activities.

#### **Site wise HRG's Population:-**

S.No	Name of the mandal	FSW				MSM		TG	Grand Total
		H.B	S.B	B.B	H.H	KOTHI	D.D	TG	
1	Golugonda	88	17			2	1		108

2	Kotauratala	66	17	1		3	2		89
3	Makavari pelem	42	24			8	8		82
4	Nakkapaly	127	121	7	1		1		257
5	Payakaraopeta	60	32		16	54	6		168
6	Rambelli	29	6						35
7	Narsipatnam	119	47	1		10	22	10	209
8	Ravikamatham	214	39	2		2			257
9	Rolugunta	81	6	3		4	4		98
10	Yellamanchilli	58	112			6	1	4	181
	<b>Total</b>	<b>884</b>	<b>421</b>	<b>14</b>	<b>17</b>	<b>89</b>	<b>45</b>	<b>14</b>	<b>1484</b>

#### **Major Activities covered under this project.**

- Counseling support
- Dry ration distribution and rehabilitation initiatives to the identified needy HRG community,
- RMC (Regular Medical Checkup), STI treatment, ICTC services
- PLHIV, regular LFU and ART follow up for regularize the ART utilization
- Condom distribution and social marketing.
- Convergence with DLO, DAPCU, and other line depts.
- Advocacy and Crisis management and support services to HRGs.
- Community events to the target community for sensitization
- Linkage and convergence with with line departments for government schemes to the target community
- World AIDS day and candle light memorial day

#### **IV. Target intervention project for IDU in Visakhapatnam metropolis supported By the APSACS- Vijayawada, Andhra Pradesh**

The IDU groups got to be stimulated towards a paced up testing agendas Attitude of infected on safety measures and prevention tactics has to be taught. The target audience has not been getting comprehensive coverage of all components apart from the stipulated sectors as a result of the outreach and the low quality of interactions which is targeted. The scant regarded audience is not inclined and not steadfast in their approach and not coming open in obtaining services which is planned to be rectified.

The changes in the population of the target group are not visible excepting that almost all are not getting tested and confidence and composure are not apparent as a result of ill treatments and non - increase in knowledge and awareness levels. In the line of order the

participation level of the stakeholders like family, peers, siblings etc. is not very promising and knowledge levels are not grading as well as not inducting other neighbors is apparent in the project areas of Visakhapatnam of Andhra Pradesh. The amazing aspect is that the information as to the treatment is not being made available and the multiplicity of the likelihoods are surfacing to link up to the likelihood of spread.

Attitude of infected community on positive behavior is not showing up the results In-house orientation on attitudinal aspects are not pacing up to the demand for personalized attention on the grass root functionaries and the community has failing to identify the progress of the inputs in relation to the collaboration of government line department functionaries. Utilization of the staff for conducting treatment intervention, treatment outlets etc. are not being devised and communications channels passing through many stumbling blocks like limited human resource as compared to the area to be covered while ensuring the participation of the secondary stakeholders and in this respect the peer education has not recorded positive gains. An added dimension has been the identification of possible healthy partners to the HIV infected so that a comprehensive strategy could be evolved.

- Behavior change communication, an approach that involved behavioral sciences, social learning, and persuasion to achieve realistic targets.
- Emphasizes on audience involvement and participation throughout the Testing process.
- Appreciation of the crucial role of environment, involvement of stakeholders and peer/sibling involvement is required to capture attention, interest and most importantly emotions to make learning and change a pleasurable experience.
- Community sensitization, registration in OST and LFU follow up
- Generating awareness on HEPETITIS B and provide testing services with the support of local institutions
- Candle light memorial day, world AIDS day, international drug abuse and illicit trafficking
- Campaigning on drug free Visakhapatnam, mass media and IEC
- In the similar lines SAMIDA IDU project has organized the International Condom Day & Signature campaign.

In the similar lines SAMIDA IDU project has organized the International Condom Day & Signature campaign. On the occasion of the International Condom Day the event was organized by the SAMIDA in Visakhapatnam District on 13 & 14 of the February 2023. In this event we have organized the awareness meeting. The Condom awareness camp was

inaugurated by the Grama Panchayath Sarpanch, the venue of the meeting on Village School Building.

#### **V. Vitamin Angels – Distribution of Vitamin A and Albendazol for de-worming-**

Vitamin A and deworming tablets, given to at-risk children < 5 years old, fights immediate risks of illness or death helps to end malnutrition in children under 5 years, and helps build children's foundations for long-term success, including to eradicate poverty

Under this CSR initiative the SAMIDA has taken the noble part in Vitamin Angels sponsored distribution of Vitamin A and Albendazol for de-worming for children between the ages 1-5 years.

Under this program the staff and volunteers are given training in administration of the medication in the Tribal and rural regions and accordingly around 5000 children are administered the medication.

Functionaries are taught on the essentials of administering the Vitamin-A capsules and Albendazole de-worming which are very fundamental to child health and sustenance.

Our personnel have this usual function of performing the vitamin supplementation administration during their field sorties and lack of them at their disposal is a real issue since the areas our people both at rural and tribal tract are very inaccessible and unable to reach out to hospitals or AWC's and the timely provision of these essentials will certainly enable to discharge the functions.

In this program we create awareness on the Vitamin –A & Albendazol benefits and importance of the children concern.

## **2. Enterprenuer Development & life skills Program**

We have oriented to the trainees along with the skill trainings. The EDP & Life skill trainings which has given impetus to the functional partnership and the SAMIDA has commenced that has instilled the much needed social relations aspects and is a boon to the dropouts on the contemporary issues of embedding with social issues and adjustment aspects. With a commitment to impart social skills based employability trainings and towards institution building these have started at selected place with chosen topics through experienced resource persons and in this mission hereby the EDP is commenced at venue.

## **3. Promotion of the Vocational Education & Community development**

SAMIDA provides a platform for vocational training to those students who show a lack of interest in formal studies or were dropouts from school. There is lot of unemployment due to most of the students opting for general subjects. Even after long of years of study and spending lot of money, the students do not acquire any specific skills. As a result, they do not find employment and again depend on their families for maintenance. But we at SAMIDA want the students to become financially independent and support their families. Hence we give importance to vocational education and training.

## **4. Partnership with CBWE (Dathopathi Thangadi national board for workers Education & Development)**

The SAMIDA has partnered with Dathopathi Thangadi national board for workers Education & Development to disseminate the workers' rights and obligations, workers identity cards, E Srama cards, Pradhan mantra Shram Yogi Mandhana Pension Yojana, legal rights and remedies at the Ananthagiri of ASR Raju district and Nakkapalli, Ravikamatham & Payakaraopeta Mandals in Anakapalli district during the period of 2022-2023 FY by inviting the legible resource persons and gathering all the village PRI, elders and workers of all classes at a convenient time and places.

### **The objectives of the training cum demonstration classes are**

Strengthen among all sections of the working class, including rural workers, a sense of patriotism, national integrity, unity, amity, communal harmony, secularism and pride in being an Indian. Promote all sections of workers, including rural workers and women workers, for their intelligent participation in social and economic development of the nation in accordance with its declared objectives. Develop amongst the workers a greater understanding of the problems of their social and economic environment, their responsibilities towards family members, and their rights and obligations as citizens, as workers in industry and as members and officials of trade union. Develop capacity of

workers in all aspects to meet the challenges of the country from time to time. Develop strong, united and more responsible trade unions and to strengthen democratic processes and traditions in the trade union movement through more enlightened members and better trained officials.

To meet the needs of workers to have access to ways of acquiring and continuous up gradation of knowledge and skills that they require to find and hold a job. Overall 15 numbers of training programs are organized with 450 numbers of participants at various locations in the operational area. As an outcome all the participants have been sensitized and the schemes and linkages are obtained

## 5. Support education materials & nutrition support to the rural and tribal areas of the Ravikamatham & Yellamanchili mandals in the Anakapalli district

In this program during the bi-monthly we provide education materials & nutrition support to 400 to 500 poor and needy children. We have provided rice, vegetables & groceries to the FSM communities those who are really desirable families- we covered 162 families under this program. Nutrition Kits – 3 fruits, 6 note books, groundnut chuckles box, biscuits and snacks, soaps & sanitizers, books, copes boxes, Masks and sanitizers, Fruits & snacks distribution to the tribal children in Ananthagiri & Ravikamatham Mandals, ASR and Anakapalli Districts with the support of other donors.

We accessed the system with school administration to stagger schedules of distribution times and prioritize seating and Physical distance is sought to be maintained when eating outdoors. Avoid serving meals in spaces where 6 feet of physical distance cannot be maintained. Maximize fresh air flow by prioritizing outdoor serving and eating meals outside as much as possible.

## 6. Maga medical camp on the eve of 14<sup>th</sup> November

Though these medical camps are periodical for us, yet this event has been organized in the Ananthagiri on the eve of children's day 14th November wherein we have distributed medicine based on the doctor guidance and prescription covering about almost 20 villages under this camp, with the partnership My care hospital. We carry out medical matters to tribal children that are difficult to diagnose, complicated cases, long drawn out malnutrition related cases requiring NRC are referred to Paderu NRC district hospital for further management. All drugs, diagnostics and surgical /non surgical interventions are provided free of cost to all children. Capacity building, Training of parents on children

medical management, consultations with health workers, health supervisors, laboratory technicians and ASHAs are conducted during every camp to develop adequate skills for diagnosis and management of tribal children health cases.

## 7. Special programs conducted during the year

### 1. Anti-Child Labour Day

The program aims to improve the geographical representation of the organization SAMIDA, promote gender parity at professional level, create an enhanced pool of children enriching and diversifying children. It is an opportunity to join mainstream efforts at the early stage of their career and hundreds of millions of girls and boys throughout are involved in work that deprives them of receiving an adequate education, health, leisure and basic freedoms, violating this way their rights. Of these children, more than half are exposed to the worst forms of child labour.

### 2. Children's day

The children day is celebrated on 20th of Nov commemorating the birth anniversary of our first Prime Minister Late Pandit Jawaharlal Nehru. The United Nations' (UN) Universal Children's Day, which was established in 1954, is celebrated on November 14th each year to promote international togetherness and awareness among children worldwide. The SAMIDA commemorating the special event has organized the BAL Diwas in the ASR Districts and schools of Visakhapatnam Rural district and has organized several of the programs like paintings, essay competitions and to promote happiness of all children and to express gratitude toward mothers and parents.

### **3. UNCRC Event**

We have organized the event of UNCRC at Ananthageri mandal. Biologically a child is a human being between the stages of birth and puberty. It refers to a minor, a person younger than the age of majority. Children can be raised by parents, by fosterers, guardians or partially raised in a day care center. Specifically, they have the right to equal protection, which means that every child is entitled to the same treatment at the hands of authority regardless of race, gender, disability, or religion.

Children's rights include their right to association with both parents, human identity as well as the basic needs for physical protection, food, universal state-paid education, health care, and criminal laws appropriate for the age and development of the child, equal protection of the child's civil rights, and freedom. On this day all the nations celebrate the UNCRC functions including the children gathering, competitions, prize distribution, and school level rallies, elders addressing the children gathering etc.

### **4. International Women's Day**

SAMIDA has organized the event of the International Women's Day event in the project coverage villages from 06-03-2023 to 08-03-2023 with the support of the donors. In this event we have the awareness camps at different service centers of ASR and Visakhapatnam Districts with the youth and women. We have organized the awareness camp with youth and women on the issues of HIV/AIDs, Unwanted pregnancies and also Sexually Transmitted Diseases.. After completion of the awareness camp, we have organized the marching event in village main roads and streets. The youth and women are given the slogans on importance of the safe sex practices and usage of condom and avoid the unwanted pregnancies benefits of the condom usage and save Girl child also use condom protects health. All the participants are actively in the event.

### **5. World AIDS day December 1st of 2022**

The SAMIDA organization under the aegis of AHF has organised the WAD -2022 campaign in Visakhapatnam District during 21st November 2022 to 1st December 2022. This campaign has admixed 8 Mandals in the Visakhapatnam District and maneuvered 1000 Free HIV tests and has identified 10 PLHIVs associating with deferent community based organizations like Auto unions, SHG groups, Youth associations and students.

As part of the WAD campaign the SAMIDA has organized the world AIDS day event at all the places of intervention covering all the components and sectors resulting in the Speak out regarding testing, against stigma in which helping out other marginalized communities at risk of HIV infection and not testing. The event is compassionate support and services

and engaging beneficiaries and local champions to provide comprehensive HIV services and illuminating risk among persons with disabilities identifying and counseling marginalized young people. On this day the rallies are organized with children, youth, CBO's, group interventions and meetings for AIDS free society.

The doctors are involved, RM/PMP, CBO etc. sections are mobilized and massive people gatherings, media sensitization and Providing opportunities to adolescent and young women reducing devaluation because of gender bias, Social isolation, economic disadvantage, discriminatory cultural norms, orphan hood, gender-based violence, and school drop-out all contribute to girls' vulnerability to HIV is the culmination of the event on this Dec 1st 2022.

## 6. Candlelight memorial day event

The candle light Memorial Day celebrated in memory of the deaths of PLHIV's and dependants of HIV/AIDs and commemorating the day with the rallies and meetings, Nutrition distribution to the HIV infected and effected communities and Create awareness on health and personal hygiene. The occasion is marked with the presence of complete district administration and all the PLHIV makes their presence on this occasion

## **7. International day against drug abuse and illicit trafficking**

The International Day against Drug Abuse and Illicit Trafficking is a United Nations International Day against drug abuse and the illegal drug trade. It is observed annually on 26 June, Supported each year by various organizations all over the world, this global observance aims to raise awareness of the major problem that illicit drugs represent to society since lot more of crimes are associated with this trade in which maximum is cannabis and opium and the associated are human trafficking. In view of this SAMIDA with the direction of APSACS has organized this day with rallies, awareness camps and signatures with the presence of entire range of district officials.

### **Conclusions**

We, the SAMIDA prevail upon you to accredit the report and extend your esteemed observations support. That, we are located and carrying on operations in the Districts of Andhra Pradesh particularly in Alluri Seetha Rama raju, Visakhapatnam, Vizianagaram, Srikakulam, Hyderabad and East Godavari and covering the public health segment, the partnerships Projected are strengthening of CBO Mechanism while simultaneously aggrandizing the education and community owned action strategies.

The community development which is the primary networking with health and education, civil society organizations, advocacy groups and these regional and national networks apart from our continuously on-going capacity building and training programs of different partnership and collaboration projects. As such the welfare programs would be of immense facilitation to the masses and hereby we are imploring you to further the associated initiatives.

The main outcome of the tribal education is to develop the mainstreaming ensuring age appropriate learning levels, nutrition and enhancing the enabling and demand generation environment, learning skills of the ST children for a variety of family/peer/sibling roles to improve their academic performances. Enabling ecosystem is developed which comprises school premises, pedagogy that transitions from rote learning to conceptual methods that can keep both teachers and students engaged and engrossed among others.

D.Veerabhadrarao  
Executive Secretary  
SAMIDA
